Abstract:

A brief overview of the modern South African wine industry, where it's come from, where it is going, and what it has achieved in the past decade - illustrated with a tasting of over 20 of the country's current fine wine offering (mainly from the super-premium segment of the spectrum). Included in the line-up will be examples of one or more of most of the best performing varieties - the tasting also serving to illustrate how South African wine positions stylistically among the leading new and old world producers.
